Fred!

I'm very exited about this. Nice work.

Files attached with some comments. Essentially I'm asking that you re-organize reply-to-reviewers (Editor; R1; R2; R3). And consider a format change of our response being indented instead of vice-versa.

See some comments in the attached. Also recall my previous comments related to response to reviewers

1) Careful some of the text runs off the page

2) Give a little more sign posting for the reviewers. We've addressed this point in the text by addin teh following sentence (see b p 10)
